

Safeguarding of Client Funds

Account Segregation

Securing our clients' funds is our top priority. That is why, TechFX LLC is continuously placing great efforts in creating and maintaining a secure trading environment and internal procedures that will protect our client's privacy and funds.

Most importantly, we make sure client's funds are segregated from our corporate operating accounts and are deposited in first-class, trusted and global banking institutions.

State-of-the-art Technology

We also work with state-of-the-art technology that ensures the safety of all clients' transactions. We use the latest physical hardware and software so as to protect all data systems.

Among the things we offer are:

Strict firewalls and Secure Sockets Layer (SSL) software that are used to protect all data during transmission.

Trading servers that are located in SAS 70 certified data centers.

Transactions are under Level 1 PCI compliance services moderation.

Encrypted transactions and communication data servers.
